Methods and assumptions used in valuing such proposed change may be modified if the nature is such that alternative assumptions are clearly warranted.

Definitions--agreements to transfer service between plans--election to transfer--transfer of service, determination of value--amount due, payment period--effect of transfer--transfer not to result in receipt of benefits under more than one plan.

105.691

1. As used in this section, unless a different meaning is plainly required by the context, the following terms mean:

(1) "Accumulated contributions", the sum of all amounts deducted from the compensation of an individual and credited to the person's individual account in the applicable plan, together with interest allowed thereon by the plan;

(2) "Creditable service", the service of an individual, whether rendered while a member of a plan or not, which is recognized by a plan in determining the individual's eligibility for and the amount of the individual's benefits under the plan;

(3) "Plan" or "retirement plan", any retirement system established by the state of Missouri or any political subdivision or instrumentality of the state for the purpose of providing plan benefits for elected or appointed public officials or employees of the state of Missouri or any political subdivision or instrumentality of the state;

(4) "Receiving plan", a plan which pursuant to this section is receiving funds from another plan or an individual to provide creditable service for that individual;

(5) "Transferring plan", a plan which pursuant to this section is transferring funds to another plan for the purpose of providing creditable service for an individual;

(6) "Vested", having the right to receive the payment of a benefit from the plan, whether at present or at a future time. For the purpose of determining eligibility for transferring service credit, all plans shall be deemed to have five-year vesting.

2. Any retirement plan as defined in this section may enter into cooperative agreements to transfer creditable service from one retirement plan to another when a member who has been employed in a position covered by one plan is employed in a position covered by another plan. If any two plans already have in place on August 28, 1992, a cooperative agreement for transferring service between those plans, the existing agreement may remain in force upon agreement of both plans.
3. Any individual who has not yet retired and has earned creditable service under the provisions of a retirement plan which has entered into a cooperative agreement as specified in subsection 2 of this section, and who is vested in any plan may elect in writing to transfer the individual’s creditable service from one plan to another plan upon employment and vesting in a position covered by the receiving plan. Within sixty days of such election the plan from which the individual is transferring shall transfer on the individual's behalf to the receiving plan an amount equal to the employee’s pension benefit obligation at the time of transfer using the same assumption used in performing the last regular actuarial valuation of the transferring plan; except that in no event shall the transferred amount be less than the employee's accumulated contributions on deposit with the transferring plan.

4. The receiving plan shall determine, using accepted actuarial methods, the value of transferred service in the receiving plan. The amount of creditable service which shall be recognized in the receiving plan shall be determined by the actuarial value of the funds transferred, but in no event shall such creditable service exceed the actual number of years of creditable service from the transferring plan. If the actuarial value of the funds transferred to the receiving plan is less than that required to fund the liability created by the actual number of years of creditable service in the transferring plan, the employee may purchase additional creditable service in the receiving plan up to the actual number of years of creditable service in the transferring plan by paying the amount required by the receiving plan.

5. Any individual having earned creditable service under the provisions of any of the retirement plans identified in this section who is not vested in such plans and who becomes employed and vested in a position covered by another retirement plan identified in this section shall be permitted to purchase creditable service in the plan in which the individual is vested up to the actual number of years of creditable service the individual has in the other plans. The cost shall be determined using accepted actuarial methods by the receiving plan.

6. Payment in full of an amount due by an individual electing to transfer or purchase creditable service pursuant to this section shall be made over a period not to exceed two years, measured from the date of election, or prior to the effective date of retirement benefit payments to that individual by the receiving plan, whichever is earlier, and with interest compounded annually at the actuarially assumed interest rate of the plan receiving the payments. If payment in full is not made within this prescribed time period, any partial payments made by the individual because of the election shall be refunded, and no creditable service shall be allowable in the receiving plan as a result of the partial payments.

7. Any individual employed in nonfederal public employment in Missouri but not covered by a retirement plan who becomes employed and vested in a position covered by a retirement plan identified in this section shall be permitted to purchase creditable service in the plan up to the actual number of years of public service in an uncovered position. The cost and creditable service allowed shall be determined using accepted actuarial methods by the receiving plan.

8. When an individual elects to transfer creditable service from one plan to another plan, the individual thereby forfeits any claim to any benefit based on such service under the provisions of the retirement plan from which the creditable service is transferred.

9. In no event shall any individual receive credit or benefits for the same period of service or employment under more than one retirement plan as a consequence of transfer or purchase pursuant to the provisions of this section. Benefits paid on the basis of creditable service transferred or purchased pursuant to the provisions of this section shall be calculated using the formula applicable to the receiving plan.

Retirement system--how managed.

169.420

In all metropolitan school districts of this state, there are hereby created and established retirement systems for the purpose of providing retirement benefits for employees of said school districts. Each such system shall be a body corporate, and shall be under the management of a board of trustees herein described, and shall be known as "The Public School Retirement System of ....... (name of school district)". Such system shall, by and in such name, sue and be sued, transact all of its business, invest all of its funds and hold all of its cash, securities and other property; provided, however, that such securities and other property may be held on behalf of the retirement system in the name of a nominee in order to facilitate the expeditious transfer of such securities or other property.

Who shall be members.

169.430

All persons who shall hereafter become employees shall become members as a condition of their employment and shall receive no pension or retirement benefit from any pension or retirement system other than the retirement system established pursuant to sections 169.410 to 169.540 because of credited years of service in the school district, nor shall they be required to make contributions under any other pension or retirement system of any school district or state because of such years, except that this section does not prohibit the extension of the benefits and liabilities of Title II of the Social Security Act of the United States (42 U.S.C.A. Section 401 et seq.) to the employees of the school district for the purpose of supplementing the benefits provided by this law, through agreement by the district and the state pursuant to sections 105.300 to 105.440.

Revocation of election of coverage made on or ninety days after October 13, 1961, procedure, effect on creditable service.

Any member, who elected on October 13, 1961, or within ninety days thereafter to continue contributions and receive benefits as provided by the law theretofore, may revoke such election by written application to the board of trustees and, upon making the payment of such amount, including interest, as is required to make his total accumulated contributions
equal to what they would have been had he not made such prior election but instead had made contributions to the retirement system established by sections 169.410 to 169.540, shall receive credit in such system for equivalent service.

Effective 6-19-87

Years of service, how determined--purchase of credit for service, limitations and conditions.

169.440

1. In no case shall more than one year of service be credited for all service in one calendar year.

2. The board of trustees shall include an employee's accumulated and unused days of sick leave, if any, in computing the employee's credited service upon the employee's retirement.

3. Any member inducted into the armed forces of the United States while an employee, and discharged or separated from such service by other than dishonorable discharge, shall be credited with such period or periods of time, not exceeding a total of four years, spent in such service during time of war or national emergency, and any additional period or periods of involuntary service as if such member had been for all effects and purposes in active service as an employee during such period or periods of time. Periods of national emergency, as that term is used in this section, shall be prescribed by rule of the board of trustees, giving due regard to the acts and resolutions of Congress and the proclamations and orders of the President.

4. Any member who is granted a leave of absence with reduced pay may authorize deduction of contributions based on full compensation, the same as if not on leave, and in such case the full compensation shall be used as annual compensation in determining the final average compensation for calculation of benefits.

5. A member may elect to purchase and receive credit for service in accordance with the following conditions and limitations:

   (1) The member must have a minimum of five years of continuous credited membership service in this retirement system prior to the member's election to purchase;

   (2) The member must have one year of credited service in this retirement system for each year to be credited;

   (3) The member must purchase the entire amount of credited service the member is eligible to purchase in a given category;

   (4) Eligible categories of credited service that can be purchased are:

      (a) Service rendered in a public school district in the state of Missouri, or outside the state of Missouri;

      (b) Service as an employee which at the time was not classified as membership service nor were contributions paid but which would be classified as membership service under later law and regulations;

      (d) A period of up to five years during which a member was involuntarily laid off in a staff reduction by the board of education after 1980, provided the member was restored to full-time employment and the member did not receive a refund of the member's accumulated contributions for credited service rendered prior to the layoff;

      (e) Service for which the member received a refund of the member's accumulated contributions;

      (f) Up to three years of service rendered in a school, which is not part of the public school system of this state and which charged tuition for the rendering of elementary and secondary educational services, as a full-time employee who was duly certified under the law governing the certification of teachers during all of such years of employment;

      (5) The member must pay for the purchase of service the amount required by the rules and regulations established by the board of trustees of the retirement system;

      (6) The retirement system may accept a transfer of funds from a plan qualified under Section 401(a) or 403(b) of the Internal Revenue Code in full or partial payment of the amount required to purchase the credited service;

      (7) A member shall receive credit at retirement for only such service as has met the conditions of this subsection. If the member has paid for any service which has not been credited, the member shall receive a refund of the excess payment. If the member has not completed such member's payment at time of retirement, the first benefits from the retirement system shall be applied to pay the balance of the amount due and thereafter the full benefits shall be payable.
169.450

1. The general administration and responsibility for the proper operation of the retirement system and for making effective the provisions of sections 169.410 to 169.540 are hereby vested in a board of trustees of eleven persons, as follows:

(1) Four trustees to be appointed for terms of four years by the board of education; provided, however, that their terms shall be fixed so the terms of one of the trustees so appointed shall expire each year. The members of such board of trustees appointed by the board of education may be members of the board of education or other individuals deemed qualified to hold such positions by the board of education;

(2) Four trustees to be elected for terms of four years by and from the active members of the retirement system who shall hold office as trustees only while active members; provided, however, that their terms shall be fixed so that the terms of one of the trustees so elected shall expire each year; and provided further, that not more than two of such persons shall be teachers and two shall be nonteachers. For the purposes of this subsection, a school administrator shall not be eligible for the positions established pursuant to this subdivision and shall be eligible for the position established pursuant to subdivision (4) of this subsection;

(3) Two trustees, who shall be retired members, to be elected for terms of four years by and from the retired members of the retirement system; provided, however, that the terms of office of the first two trustees so elected shall begin immediately upon their election and shall expire two and four years from the date of their election, respectively; and provided further, that not more than one of such persons shall be a teacher and one shall be a nonteacher;

(4) One member, who shall be a school administrator, to be elected for a term of four years by and from the active members of the retirement system who shall hold office as a trustee only while an active member; except that, the initial term of office of such trustee shall expire on December 31, 1999.

2. If a vacancy occurs in the office of trustee, the vacancy shall be filled for the unexpired term in the same manner as the office was previously filled. No vacancy or vacancies on the board of trustees shall impair the power of the remaining trustees to administer the retirement system pending the filling of such vacancies.

3. In the event of a lapse of a school district's corporate organization as described in subsections 1 and 4 of section 162.081, or for any other reason, the general administration and the responsibility for the proper operation of the retirement system shall continue to be fully vested in the trustees then currently serving and such trustees shall continue to serve and be elected in the same manner as set forth in this statute as if no lapse had occurred, except that in the event of vacancies occurring in the office of trustees appointed by the board of education prior to the lapse, the board of trustees shall appoint a qualified person or persons to fill such vacancy or vacancies for terms of up to four years.

4. Trustees shall serve without compensation, and any trustee shall be reimbursed from the expense fund for all necessary expenses which the trustee may incur through service on the board of trustees.

5. Each trustee shall, within ten days after such trustee's appointment or election, take an oath of office before the clerk of the circuit court of the judicial circuit in which the school district is located that, so far as it devolves upon the trustee, the trustee will diligently and honestly administer the affairs of the board of trustees and that the trustee will not knowingly violate or willingly permit to be violated any of the provisions of the law applicable to the retirement system. Such oath shall be subscribed to by the trustee making it and filed in the office of the clerk of the circuit court.

6. The circuit court of the judicial circuit in which the school district is located shall have jurisdiction over the members of the board of trustees to require them to account for their official conduct in the management and disposition of the funds and property committed to their charge; to order, decree and compel payment by them to the public school retirement system of their school district of all sums of money, and of the value of all property which may have been improperly retained by them, or transferred to others, or which may have been lost or wasted by any violation of their duties or abuse of their powers as such members of such board; to remove any such member upon proof that the trustee has abused the trustee's trust or has violated the duties of the trustee's office; to restrain and prevent any alienation or disposition of property of such public school retirement system by the members, in cases where it may be threatened, or there is good reason to apprehend that it is intended to be made in fraud of the rights and interests of such public school retirement system. The jurisdiction conferred by sections 169.410 to 169.540 shall be exercised as in ordinary cases upon petition, filed by the board of education of such school district, or by any two members of the board of trustees. Such petition shall be heard in a summary manner after ten days' notice in writing to the member complained of, and an
appeal shall lie from the judgment of the circuit court as in other causes and be speedily determined, but such appeal
shall not operate under any condition as a supersedeas of a judgment of removal from office.

7. Each trustee shall be entitled to one vote in the board of trustees. Six votes shall be necessary for a decision by the
trustees at any meeting of the board of trustees.

8. Subject to the limitations of sections 169.410 to 169.540, the board of trustees shall, from time to time, establish rules
and regulations for the administration of the retirement system, for eligibility for and determination of benefits under the
retirement system, for the investment of retirement system assets, and for the transaction of the retirement system’s
business.

9. The board of trustees shall elect from its membership a chairman and shall, by majority vote of its members, appoint a
secretary, who may be, but need not be, one of its members. It shall engage such actuarial and other services as shall be
required to transact the business of the retirement system. It shall also engage an investment counselor who shall be
experienced in the investment of moneys to advise the trustees on investments of the retirement system. The
compensation of all persons engaged by the board of trustees and all other expenses of the board necessary for the
operation of the retirement system shall be paid at such rates and in such amounts as the board of trustees shall approve.

10. The board of trustees shall keep in convenient form such data as shall be necessary for actuarial valuations of the
assets of the retirement system and for checking the experience of the system.

11. The board of trustees shall keep a record of all its proceedings which shall be open to public inspection. It shall
prepare annually and send to the board of education and to each member of the retirement system a report showing the
fiscal transactions of the retirement system for the preceding fiscal year, a detailed listing of all salaries and expenditures
incurred by the trustees for its operation, the amount of the accumulated cash and securities of the system, and the last
balance sheet showing the financial condition of the system by means of an actuarial valuation of the assets and liabilities
of the retirement system. The board of trustees shall also prepare or cause to be prepared an annual report concerning
the operation of the retirement system herein provided for, which report shall be sent by the chairman of the board of
trustees to the board of education.

12. The board of trustees shall arrange for necessary legal advice for the operation of the retirement system.

13. The board of trustees shall designate a medical board to be composed of three physicians, none of whom shall be
eligible for benefits pursuant to sections 169.410 to 169.540, who shall arrange for and pass upon all medical
examinations required pursuant to the provisions of sections 169.410 to 169.540, shall investigate all essential statements
and certificates made by or on behalf of a member in connection with an application for disability retirement and shall
report in writing to the board of trustees its conclusions and recommendations upon all matters referred to it.

14. The actuary shall be the technical adviser of the board of trustees on matters regarding the operation of the system
created by sections 169.410 to 169.540 and shall perform such other duties as are required in connection therewith. Such
person shall be qualified as an actuary by membership as a fellow in the Society of Actuaries or by objective standards
which are no less stringent than those established by the Society of Actuaries.

15. At least once in each five-year period the actuary shall make an investigation into the actuarial experience of the
retirement system, and taking into account the results of such investigation of the experience, the board of trustees shall
adopt for the retirement system such actuarial assumptions as shall be deemed necessary.

16. On the basis of such actuarial assumptions as the board of trustees shall adopt, the actuary shall make an annual
valuation of the assets and liabilities of the funds of the retirement system.

17. On the basis of the valuation the board of trustees shall certify the rates of contribution payable by the board of
education.

1. Any member may retire and receive a normal pension upon his or her written application to the board of trustees
setting forth at what time not less than fifteen days nor more than one hundred eighty days subsequent to the execution
and filing of such application he or she desires to be retired; provided, that the member at the time so specified for his or
her retirement either (a) shall have attained age sixty-five or (b) shall have attained an age which when added to the
number of years of credited service of such member shall total a sum not less than eighty. For purposes of computing
any member's age under this section, the board shall, if necessary, add to his or her actual age any accumulated and unused days of sick leave included in his or her credited service.

2. Upon retirement under subsection 1 of this section, a member shall receive an annual pension payable in monthly installments in the following manner:

   (1) A member hired prior to January 1, 2018, shall receive an annual pension payable in monthly installments equal to his or her number of years of credited service multiplied by two percent of his or her average final compensation subject to a maximum pension of sixty percent of his or her average final compensation; or

   (2) A member hired for the first time on or after January 1, 2018, shall receive an annual pension payable in monthly installments equal to his or her number of years of credited service multiplied by one and three-fourths percent of such member's average final compensation subject to a maximum pension of sixty percent of the member's average final compensation.

3. A member who is not eligible for normal pension pursuant to subsection 1 of this section but who has attained age sixty and has five or more years of credited service may make application in the same manner as pursuant to subsection 1 of this section for an early pension. His or her early pension shall be computed pursuant to subsection 2 of this section, but shall be reduced by five-ninths of one percent for each month such member's early retirement date precedes the earliest date he or she could have received a normal pension pursuant to subsection 1 of this section had his or her service continued.

4. Upon the written application of the member or of the employing board, any active member who has five or more years of credited service with such board and does not qualify for a normal pension pursuant to subsection 1 of this section may be retired by the board of trustees, not less than fifteen days and not more than one hundred eighty days next following the date of filing such application, and receive a disability pension, provided, that the medical board after a medical examination of such member or such member's medical records shall certify that such member is unable to further perform his or her duties due to mental or physical incapacity, and that such incapacity is likely to be permanent and that such member should be retired; or, provided the member furnishes evidence of the receipt of disability benefits under the federal Old Age, Survivors and Disability Insurance System of the Social Security Act. The determination of the board of trustees in the matter shall be final and conclusive. A member being retired pursuant to this subsection who has accumulated unused vacation and sick leave may elect to have the commencement of his or her disability pension deferred for more than one hundred eighty days during the period he or she is entitled to vacation and sick pay.

5. Upon retirement for disability, a member shall receive a disability pension until such time as he or she meets the requirements for a normal pension pursuant to subsection 1 of this section, at which time his or her disability pension will be deemed to be a normal pension. The member's disability pension shall be the larger of:

   (1) A normal pension based on his or her credited service to the date of his or her retirement for disability and calculated as if he or she were age sixty-five; or

   (2) One-fourth of his or her average final compensation; except that such benefit shall not exceed the normal pension which he or she would have received upon retirement if his or her service had continued and he or she had satisfied the eligibility requirements of subsection 1 of this section and had his or her final average compensation been unchanged.

6. Once each year during the first five years following retirement for disability and once in every three-year period thereafter while receiving a disability pension, the board of trustees may, and shall, require any member receiving a disability pension who has not yet become eligible for a normal pension pursuant to subsection 1 of this section to undergo a medical examination at a place designated by the medical board or by a physician or physicians designated by such board. If any such member receiving a disability pension refuses to submit to such medical examination, his or her benefit may be discontinued until his or her withdrawal of such refusal, and if his or her refusal continues for one year, all rights in and to his or her pension may be revoked by the board of trustees.

7. If the board of trustees finds that any member receiving a disability pension is engaged in or is able to engage in a gainful occupation paying more than the difference between his or her disability pension plus benefits, if any, to which he or she is entitled under the federal Old Age, Survivors and Disability Insurance System of the Social Security Act and the current rate of monthly compensation for the position he or she held at retirement, then the amount of his or her disability pension shall be reduced to an amount which together with the amount earnable by him or her shall equal such current rate of monthly compensation. The decisions of the board of trustees in regard to such modification of disability benefits shall be final and conclusive.

8. If any member receiving a disability pension is restored to service as an employee, he or she shall again become an active member of the retirement system and contribute thereunder. His or her credited service at the time of his or her retirement for disability shall be restored and the excess of his or her accumulated contributions at his or her retirement for disability over the total disability pension payments which he or she received shall be credited to his or her account.
9. If a member with fewer than five years credited service ceases to be an employee, except by death, he or she shall be paid the amount of his or her accumulated contributions in accordance with applicable provisions of the Internal Revenue Code.

10. If a member with five years or more credited service ceases to be an employee, except by death or retirement, he or she shall be paid on demand the amount of his or her accumulated contributions, or he or she may leave his or her accumulated contributions with the retirement system and be an inactive member and claim a retirement benefit at any time after he or she reaches the minimum age for retirement, except that if such a member’s accumulated contributions do not exceed the involuntary distribution limits under provisions of the Internal Revenue Code, the member must elect to become an inactive member within thirty days of employment separation to avoid application of the involuntary distribution provisions of the Internal Revenue Code. When an inactive member presents his or her valid claim to the board of trustees, he or she shall be granted a benefit at such time and for such amount as is available pursuant to subsection 2 or 3 of this section in accordance with the provisions of law in effect at the time his or her active membership ceased. The accumulated contributions of an inactive member may be withdrawn at any time upon ninety days’ notice or such shorter notice as is approved by the board of trustees. If an inactive member dies before retirement, his or her accumulated contributions shall be paid to his or her designated beneficiary, if living, otherwise to the estate of the member. A member’s accumulated contributions shall not be paid to him or her so long as he or she remains in service as an employee.

11. Any member upon retirement shall receive his or her pension payable throughout life subject to the provision that if his or her death occurs before he or she has received total benefits at least as large as his or her accumulated contributions at retirement, the difference shall be paid in one sum to his or her designated beneficiary, if living, otherwise to the estate of the retired member.

12. Prior to the date of retirement pursuant to subsection 2, 3, or 4 of this section, a member may elect to receive the actuarial equivalent of his or her pension in a lesser amount, payable throughout life under one of the following options with the provision that:

Option 1. Upon his or her death, his or her pension shall be continued throughout the life of and paid to his or her beneficiary, or

Option 2. Upon his or her death, one-half of his or her pension shall be continued throughout the life of and paid to his or her beneficiary, or

Option 3. Upon his or her death, his or her pension shall be continued throughout the life of and paid to his or her beneficiary, provided that in the event his or her designated beneficiary predeceases him or her, then his or her pension shall be adjusted effective the first day of the month following the month in which his or her designated beneficiary died to the amount determined pursuant to subsection 2 or 3 of this section at the time of his or her retirement, or

Option 4. Upon his or her death, one-half of his or her pension shall be continued throughout the life of and paid to his or her beneficiary, provided that in the event his or her designated beneficiary predeceases him or her, then his or her pension shall be adjusted effective the first day of the month following the month in which his or her designated beneficiary died to the amount determined pursuant to subsection 2 or 3 of this section at the time of his or her retirement.

Option 5. Prior to age sixty-two the member will receive an increased pension, where the total pension prior to age sixty-two is approximately equal to the pension after age sixty-two plus the member’s estimated federal Social Security benefit, provided that the reduced pension after age sixty-two is not less than one-half the pension the member could have received had no option been elected.

A member may elect a combination of option 1 and option 5, or option 2 and option 5. The survivor benefits payable to a beneficiary, other than the spouse of the retired member, under any of the foregoing options shall in no event exceed fifty percent of the actuarial equivalent of the pension determined pursuant to subsection 2 or 3 of this section at the time of his or her retirement.

13. If an option has been elected pursuant to subsection 12 of this section, and both the retired member and beneficiary die before receiving total benefits as large as the member’s accumulated contributions at retirement, the difference shall be paid to the designated beneficiary of the person last entitled to benefits, if living, otherwise to the estate of the person last entitled to benefits.

14. If an active member dies while an employee and with five or more years of credited service and a dependent of the member is designated as beneficiary to receive his or her accumulated contributions, such beneficiary may, in lieu thereof, request that benefits be paid under option 1, subsection 12 of this section, as if the member had attained age sixty, if the member was less than sixty years of age at the time of his or her death, and had retired under such option as of the date of death, provided that under the same circumstances a member may provide by written designation that benefits must be paid pursuant to option 1 to such beneficiary. In addition to benefits received under option 1,
subsection 12 of this section, a surviving spouse receiving benefits under this subsection shall receive sixty dollars per month for each unmarried dependent child of the deceased member who is under twenty-two years of age and is in the care of the surviving spouse; provided, that if there are more than three such unmarried dependent children one hundred eighty dollars shall be divided equally among them. A “dependent beneficiary” for the purpose of this subsection only shall mean either the surviving spouse or a person who at the time of the death of the member was receiving at least one-half of his or her support from the member, and the determination of the board of trustees as to whether a person is a dependent shall be final.

15. In lieu of accepting the payment of the accumulated contributions of a member who dies after having at least eighteen months of credited service and while an employee, an eligible beneficiary or, if no surviving eligible beneficiary, the unmarried dependent children of the member under twenty-two years of age may elect to receive the benefits pursuant to subdivision (1), (2), (3), or (4) of this subsection. An “eligible beneficiary” is the surviving spouse, unmarried dependent children under twenty-two years of age or dependent parents of the member, if designated as beneficiary. A “dependent” is one receiving at least one-half of his or her support from the member at his or her death.

1. A surviving spouse who is sixty-two years of age at the death of the member or upon becoming such age thereafter, and who was married to the member at least one year, may receive sixty dollars per month for life. A spouse may receive this benefit after receiving benefits pursuant to subdivision (2) of this subsection.

(2) A surviving spouse who has in his or her care an unmarried dependent child of the deceased member under twenty-two years of age may receive sixty dollars per month plus sixty dollars per month for each child under twenty-two years of age but not more than a total of two hundred forty dollars per month.

(3) If no benefits are payable pursuant to subdivision (2) of this subsection, unmarried dependent children under the age of twenty-two may receive sixty dollars each per month; provided that if there are more than three such children one hundred eighty dollars per month shall be divided equally among them.

(4) A dependent parent upon attaining sixty-two years of age may receive sixty dollars per month as long as not remarried provided no benefits are payable at any time pursuant to subdivision (1), (2), or (3) of this subsection. If there are two dependent parents entitled to benefits, sixty dollars per month shall be divided equally between them.

(5) If the benefits pursuant to this subsection are elected and the total amount paid is less than an amount equal to the accumulated contributions of a member at his or her death, the difference shall be payable to the beneficiary or the estate of the beneficiary last entitled to benefits.

16. If a member receiving a normal pension again becomes an active member, his or her pension benefit payments shall cease during such membership and shall be resumed upon subsequent retirement together with such pension benefit as shall accrue by reason of his or her latest period of membership. Except as otherwise provided in section 105.269, a retired member may not receive a pension benefit for any month for which he or she receives compensation from an employing board, except he or she may serve as a part-time or temporary employee for not to exceed sixty days in any calendar year without becoming a member and without having his or her pension benefit discontinued. A retired member may also serve as a member of the board of trustees and receive any reimbursement for expenses allowed him or her because of such service without becoming an active member and without having his or her pension benefit discontinued or reduced.

17. Upon approval of the board of trustees, any member may make contributions in addition to those required. Any additional contributions shall be accumulated at interest and paid in addition to the benefits provided hereunder. The board of trustees shall make such rules and regulations as it deems appropriate in connection with additional contributions including limitations on amounts of contributions and methods of payment of benefits.

18. Notwithstanding any other provisions of this section, any member retiring on or after age sixty-five who has five or more years of credited service shall be entitled to an annual pension of the lesser of (a) an amount equal to his or her number of years of credited service multiplied by one hundred twenty dollars, or (b) one thousand eight hundred dollars. Annual pension increase, when.

169.466

1. Any retired member with fifteen or more years of creditable service at retirement receiving retirement benefits on August 28, 1997, shall receive on January first of each year, commencing on January 1, 1998, an increase in the amount of benefits received by the retired member pursuant to sections 169.410 to 169.540 during the preceding year of one hundred percent of the increase in the consumer price index calculated in the manner provided in this section; except that, no such increase in retirement benefits shall be paid for any year if such increase in the consumer price index is less than one percent. Such annual retirement benefit increase, however, shall not exceed three percent. A retired member qualified to receive an annual retirement benefit increase pursuant to this section shall not be eligible to receive an additional benefit until the January first after the first anniversary of the date on which he or she commenced receiving retirement benefits pursuant to sections 169.410 to 169.540. Benefits shall not be decreased in the case of a decrease in the consumer price index for any year.

2. For the purpose of this section, any increase in the consumer price index shall be determined by the board of trustees in November of each year based on the consumer price index for the twelve-month period ended on September thirtieth of such year over the consumer price index for the twelve-month period ended on September thirtieth of the year immediately prior thereto. Any increase so determined shall be applied by the board of trustees in calculating increases in retirement benefits that become payable pursuant to this section for the twelve-month period beginning on the January first immediately following such determination.

3. An annual increase in retirement benefits, if any, shall be payable monthly with monthly installments of other retirement benefits pursuant to sections 169.410 to 169.540.

Board of education authorized to increase pensions, adopt and implement additional plans.

169.471

1. The board of education is authorized from time to time, in its discretion, to increase the retirement benefits now or hereafter provided pursuant to sections 169.410 to 169.540 and to adopt and implement additional retirement benefits and plans, including without limitation early retirement plans, deferred retirement option plans and cost-of-living adjustments, but excluding compensation to retired members pursuant to section 169.475, and for such purpose the contribution rate of members of the retirement system may be increased to provide part of the cost thereof, subject to the following conditions:

(1) Any such increase in retirement benefits and additional retirement benefits and plans shall be approved by the board of trustees;

(2) The board of trustees shall have presented to the board of education the projected increases in rates of contribution which will be required to be made by members and the board of education to the retirement system to pay the cost of such increases in retirement benefits and additional retirement benefits and plans; and

(3) Any increase in the contribution rate of members of the retirement system shall be approved by the board of trustees and shall be deducted from the compensation of each member by the employing board and transferred and credited to the individual account of each member from whose compensation the deduction was made, and shall be administered in accordance with sections 169.410 to 169.540; provided that, any such increase in the members’ contribution rate shall not exceed one-half of one percent of compensation in any year for such increases to retirement benefits and additional retirement benefits and plans adopted during such year by the board of education pursuant to this section, and all such increases in the members’ contribution rate shall, in the aggregate, not exceed two percent of compensation.

2. The board of trustees is authorized from time to time, in its discretion, to increase the retirement benefits, now or hereafter provided under sections 169.410 to 169.540, and to adopt and implement additional retirement benefits for persons who have retired, including cost-of-living adjustments, provided that the board of trustees finds the additional benefit will not require an increase in the contribution rate required by the members, will not increase the contribution required from the board of education, and is actuarially sound. In the event the board of trustees authorizes an increase under this section, it shall certify in writing to the board of education the findings, including but not limited to all actuarial assumptions, upon which the board of trustees determined that the increase in benefits would result in no increase in contributions by members or the board of education.

2. The board of trustees shall annually credit each member's individual account with interest on the largest balance remaining in each account for the entire year and at the rate determined by the board.

3. The board of trustees may employ a bank having fiduciary powers for the provision of such custodial or clerical services as the board may deem appropriate. Disbursement of funds of the retirement system shall be under the general supervision of the board of trustees and shall be in accordance with procedures established or approved by the board of trustees with the concurrence of the system's auditors.

1. All the assets of the retirement system shall be held as one fund.

2. (1) For any member hired before January 1, 2018, the employing board shall cause to be deducted from the compensation of each member at every payroll period five percent of his or her compensation.

(2) Beginning January 1, 2018, the percentage in subdivision (1) of this subsection shall increase one-half of one percent annually until such time as the percentage equals nine percent.

(3) For any member hired for the first time on or after January 1, 2018, the employing board shall cause to be deducted from the compensation of each member at every payroll period nine percent of such member's compensation.

(4) The amounts so deducted shall be transferred to the board of trustees and credited to the individual account of each member from whose compensation the deduction was made. In determining the amount earnable by a member in any payroll period, the board of trustees may consider the rate of earnable compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period; it may omit deduction from compensation for any period less than a full payroll period if the employee was not a member on the first day of the payroll period; and to facilitate the making of the deductions, it may modify the deduction required of any member by such amount as shall not exceed one-tenth of one percent of the compensation upon the basis of which such deduction was made.

(5) The deductions provided for herein are declared to be a part of the salary of the member and the making of such deductions shall constitute payments by the member out of his or her salary or earnings and such deductions shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for his or her full salary or compensation, and the making of said deductions and the payment of salary or compensation less said deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by sections 169.410 to 169.540.

(6) The employing board may elect to pay member contributions required by this section as an employer pick up of employee contributions under Section 414(h)(2) of the Internal Revenue Code of 1986, as amended, and such contributions picked up by the employing board shall be treated as contributions made by members for all purposes of sections 169.410 to 169.540.

3. If a retired member receiving a pension pursuant to sections 169.410 to 169.540 is restored to active service and again becomes an active member of the retirement system, there shall be credited to his or her individual account an amount equal to the excess, if any, of his or her accumulated contributions at retirement over the total pension benefits paid to him or her.

*4. Annually, the actuary for the retirement system shall calculate each employer’s contribution as an amount equal to a certain percentage of the total compensation of all members employed by that employer. The percentage shall be fixed on the basis of the liabilities of the retirement system as shown by the annual actuarial valuation. The annual actuarial valuation shall be made on the basis of such actuarial assumptions and the actuarial cost method adopted by the board of trustees, provided that the actuarial cost method adopted shall be in accordance with generally accepted actuarial standards and that the unfunded actuarial accrued liability, if any, shall be amortized by level annual payments over a
period not to exceed thirty years. The provisions of this subsection shall expire on December 31, 2017; thereafter subsection 5 of this section shall apply.

5. For calendar year 2018, the rate of contribution payable by each employer shall equal sixteen percent of the total compensation of all members employed by that employer. For each calendar year thereafter, the percentage rate of contribution payable by each employer of the total compensation of all members employed by that employer shall decrease one-half of one percent annually until calendar year 2032 when the rate of contribution payable by each employer shall equal nine percent of the total compensation of all members employed by that employer. For subsequent calendar years after 2032, the rate of contribution payable by each employer shall equal nine percent of the total compensation of all members employed by that employer.

Certification of amount to be paid to retirement system, inclusion in annual budget estimates.

On or before the first day of January of each year the board of trustees shall certify to the board of education, the board of trustees and the board of regents, and to the state of Missouri with respect to the contribution for members employed by these employers, the amount which will be paid to the retirement system on or before December thirty-first of that year. On or before the first day of January of each year the board of trustees shall certify to charter schools and to the state of Missouri with respect to the contribution of members employed by these employers, the amount which will be paid to the retirement system on a monthly basis beginning January first of that year. The amount so certified shall be included by the employers in their annual budget estimates.

Obligations of system paid how--effect of change in law.

The payment of all pension benefits, refunds and other benefits or expenses pursuant to the provisions of sections 169.410 to 169.540 and all expenses in connection with the administration and operation of the retirement system are hereby made obligations chargeable against the assets of the retirement system and not of the employers, and the assets of the retirement system shall not be diverted or used for any purpose other than the payment of such obligations.

No alteration, amendment or repeal of sections 169.410 to 169.540 shall be deemed to affect the rights of members of any retirement system established thereunder with reference to deposits previously made, or to reduce any accrued or potential benefits to those who are members at the time when such alterations, amendments, or repeal becomes effective or to reduce the amount of any pension benefit then payable.

False statement, misdemeanor--correction of records--adjustment.

Any person who shall knowingly make any false statement, or shall falsify or permit to be falsified any record or records of this retirement system in any attempt to defraud such system, as a result of such act, shall be guilty of a misdemeanor and shall be punishable therefor under the laws of this state. Should any change or error in records result in any member or beneficiary receiving from the retirement system more or less than he would have been entitled to receive had the
records been correct, the board of trustees shall have the power to correct such error and, as far as practicable, may adjust
the payments in such a manner that the actuarial equivalent of the benefit to which such member or beneficiary
was correctly entitled shall be paid.

**State shall contribute no funds--exceptions.**

169.540

The state of Missouri shall contribute no funds directly or indirectly to finance the plan to pay pension benefits by
appropriation bills or otherwise, except those funds which the district may receive from time to time under a law or laws
providing for a general apportionment of school moneys throughout all the state and except employer contributions for
members employed by the board of regents which shall be made by the state of Missouri.

2. Rules required pursuant to subsection 1 of this section shall be approved, and may be amended, by a majority of all of the trustees of each board of the four retirement systems. The payment shall be completed prior to termination of membership with the retirement system with interest on the unpaid balance. Nothing in this section shall be construed to allow a member to vest in the retirement system by using the creditable service purchased pursuant to the provisions of this section to reach the time of vesting.
